

Specialized Behavioral Health for Older Adults

CALL US TODAY FOR A FREE, CONFIDENTIAL ASSESSMENT - 775-393-2201

For older adults, good mental health equates to good overall health. Growing older is not always easy, but happiness and quality-of-life should never have to be sacrificed. We can help empower lifestyle changes for older adults to transition through life's journey with dignity.

Transitions at Reno Behavioral Healthcare Hospital offers specialized treatment for people 55 and older who may be struggling with life-changing events such as retirement, divorce, onset of chronic illness, social withdrawal, lack of independence, or grief and loss.

Our specially trained staff provide an interactive and collaborative approach to care in a comfortable, private and secure environment. We are here to help you or your loved one live life to its fullest.
